Purpose of This Meeting
The South Coast Air Quality Management District (South Coast AQMD) has scheduled a Public Workshop to present and solicit information and suggestions from the public on Proposed Amended Rule 219 – Equipment Not Requiring a Written Permit Pursuant to Regulation II (PAR 219) and Proposed Amended Rule 222 – Filing Requirements for Specific Emission Sources Not Requiring a Written Permit Pursuant to Regulation II (PAR 222) which are scheduled for a Public Hearing before the South Coast AQMD Governing Board on March 3, 2023 (subject to change).

Background
Rule 219 is an administrative rule that identifies equipment, processes, and operations that emit small amounts of air contaminants that do not require permits. Rule 222 provides an alternative to South Coast AQMD permits by allowing specific emission sources that meet predetermined criteria to be registered in the Rule 222 filing program. In 2021, U.S. EPA reviewed Rule 219 and found several potential deficiencies that would prevent the rule from being approved into the State Implementation Plan. U.S. EPA has also proposed a series of recommendations to improve enforceability and clarity.

Proposed Amended Rules and Objectives
PAR 219 will be updated to address comments raised by U.S. EPA and include other revisions such as those to the exceptions and recordkeeping provisions. PAR 219 may also include new exemption provisions, removal or clarification of existing exemptions, and reformatting of the rule to be consistent with other South Coast AQMD regulations. PAR 222 will include administrative changes to align with changes in PAR 219 and minor amendments to improve rule clarity. PAR 222 may also include the addition or removal of filing program requirements.

California Environmental Quality Act (CEQA) and South Coast AQMD's certified regulatory program (Public Resources Code Section 21080.5, CEQA Guidelines Section 15251(i), and South Coast AQMD Rule 110), the South Coast AQMD, as lead agency, is currently reviewing the proposed project (PAR 219 and PAR 222) to determine if it will result in any potential adverse environmental impacts. Appropriate CEQA documentation will be prepared based on the analysis.
